H- 4500 FOG LAMP

The **H- 4500** is a high performance fog lamp designed to function in the most aggressive environments providing superior lighting when compared to conventional fog lamps.

The **H- 4500** has significant illumination features that go far beyond conventional lighting providing a homogenous light distribution and color pattern that can be compared to actual daylight.

The structural design and optical engineering of the **H- 4500** enhance road visibility with greater safety by enhancing light distribution giving better road illumination reducing eye strain while creating better driving conditions.

H- 4500 Fog lamp benefits:

- better performance than standard halogen.
- Increased life time.
- Compact size.
- Reduced eye strain.
- Safer driving conditions.
- Quick and easy installation.
- Warrantee for manufacturing defects.

H- 4500 in pictures.

H- 4500 Fog lamp features:

- Better visual light performance and illumination.
- Better quality and reliability.
- Better safety.
- Universal mounting and positioning system.
- Next generation in Hallogen lighting system.

H- 4500 IS THE ADVANCED LIGHTING FOR YOUR CAR

H- 4500 TECHNICAL PERFORMANCES

FOG LAMP

The **H- 4500** is a fog lamp designed to fit all cars and on road vehicles.

The **H- 4500** enhances visibility, during night, snow, fog, rain and is perfect when weather change is unpredictable and visibility is critical.

The **H- 4500** offers advance technology, and a wide adjustment range, making installation easy and providing outstanding performances.

all measures are in Yards

Dimensions	7.3 X 2.5 X 3.1 inches
Universal mounting bracket	Vertical +9°/- 7°, horizontal +/- 10°.
Warranty	10 years
Quality	QS 9000 certified
Bulb type	H1 12V 55W
Housing	Fiber glass, strenghtened plastics
Reflector	Electro glvanized steel sheet, powder coated, aluminium plated with additional protection layer

The **H- 4500 fog lamp** meets the most stringent quality demands of the Automotive industry.

The **H-4500** meets ECE and SAE approval for on road use.
