

ISLAND BEACONS

Illuminate raised curbing and medians with high profile Island Beacons.

Island Beacon functions as a highly reflective, oversized pavement marker. Designed to withstand vehicle roll overs, Island Beacons provide day/night visibility for all approaching vehicles. Beacons may be placed in front of “KEEP RIGHT” signs reducing vehicle / curb impacts. Designate entrance points quickly and effectively. Installation requires lag bolts or adhesive for installation.

Island Beacon is equipped with 8 “Cat’s Eye” reflectors. All standard are colors available.

IB1-W

White Reflectors

Island Beacons can be installed onto any type of raised surface for enhanced identification. Use Island Beacons to identify entrance and exit points or to designate specific maintenance areas.

Island Beacons are constructed from A.B.S. materials for strength and durability.

Built to resist truck and vehicle impact rollovers without destruction of the beacon or its reflective lenses.

Island Beacon is equipped with 8 High Power prismatic reflectors for maximum visibility.

Reflectors are available in White, Yellow, Orange, Green, Blue and Red

IB1-OG

Orange and Green Reflectors

MULTIPLE COLOR CONFIGURATIONS AVAILABLE

Island Beacons can be color configured for specific safety applications.

Easily replace reflectors with rivets or screws.

ISLAND BEACON

SAFETY & PREVENTION

Island Beacons do not require an electrical connection. They are visible from a great distance due to their High Reflecting Power and assure maximum nighttime safety. As motorists approach islands or intersections, their presence permits drivers to navigate those areas safely.

Specifications
