

Easy to install, modular rubber speed humps for speeds ranging over 30 m.p.h.

TRAFFIC CALMING

Combination of virgin and recycled rubber speed humps are designed for high impact speed areas. Safety rider speed humps offer greater visibility with its 35.5 inch roll over surface and bright yellow reflective striping. Rubber speed hump's superior construction resists warping, rotting, chipping and temperature variations. Designed for smooth roll overs.

Safety rider speed humps can cover any road surface with its modular construction with built in tongue-in-groove system. End caps available for a clean smooth roll overs.

SAFETY RIDER

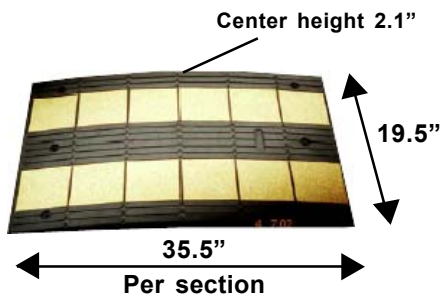

EASY ROLLOVER SPEED HUMPS

Features:

- High impact, high traction.
- Virgin and recycled rubber
- Embedded reflective tape
- Joint modular units with tongue-in-groove system
- Cover an entire roadway or span a parking lot
- End caps for protecting end sections from wear and tear.

Modular sections have 6 anchor points for secure positioning. Reflective yellow markings provide exceptional nighttime visibility to help alert drivers of a reduced speed zone.

Dimensions: 35.5" x 19.5" x 0 to 2.1" high

Safety rider can be used in school zones, hospitals, shopping malls, apartment complexes, residential neighborhoods, and any area requiring traffic calming.

HIGHLY VISIBLE

EASY INSTALLATION

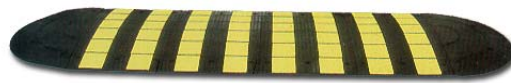

7 Speed humps and two end caps shown

TRAFFIC CALMING REDUCES SPEED WHILE MAINTAINING CONTINUOUS TRAFFIC FLOW

Benefits:

- Slows both cars and trucks
- Highly visible
- Save labor costs with quick and easy installation
- Easily relocate, move and store for future use.
- Customize any linear length you need
- Emergency vehicle friendly

Safety Rider speed humps are designed and tested to reduce speeds down to 18 mph on.
