

CHARACTERISTICS

- Ultra-Bright LED
- Standard & custom signs
- Automatic timed On-Off
- Single & double sided

BENEFITS

- Pre-built assembly
- Certified Class 1 & 2
- Temporary or permanent
- Maintenance free

Quick lock

Self-support

Signs-Fences-Banners

Solar LED Technology

US Reflector has developed a family of solar powered safety signs designed to increase awareness of hazardous areas by providing increased sign visibility. Each solar powered sign is built with Ultra-Bright LED lights that flash continuously night and day immediately alerting attention to dangerous or hazard areas. The solar sign lights are visible in all weather conditions, from bright sunlight to fog and rain.

Portable or fix, solar LED sign: are the next generation in reliable traffic safety solutions.

SOLAR SAFETY SIGNS

APPLICATIONS

Solar LED safety signs are widely used for Pedestrian Safety, Stop & Yield Signs, Loss Prevention and Safety, Vehicle Directional Instructions, Emergency Instructions, Parking Lot Safety, Homeland Security, Check points, Plant Turnarounds,

BENEFITS

- Ease of installation in remote locations
- High Visibility in All Weather Conditions
- Continuous Flashing – Day & Night
- No Costly Power Feeder Cables
- Maintenance Free
- Loss Prevention and Safety

FEATURES

- Severe Duty Solar Panel/UL Listed
- High Wind & Hail Resistant
- Tolerant to Localized Shadowing
- High Static Loading Capability
- Solid State Controller
- Lightning & Transient Over Voltage Protection
- Temperature Compensation
- Heavy Duty Deep Cycle Battery
- Non-Spillable Battery by DOT Definition

OPTIONS

Polycarbonate Solar Panel Shields, DOT Break-away Base, Remote Activation, Single or Double Sided

Part #	Description
FS-DS-300-PEDEX-1F	Single sided pedestrian sign
FS-DS-300-PEDEX-2F	Double sided pedestrian sign
FS-DS-300-STOP-1F	Single sided stop sign
FS-DS-300-GAS-TP1-1F	Single sided gas sign
FS-DS-300-ELEC-TP1-1F	Single sided electrical sign
FS-DS-300-RAILRD-1F	Single sided Railroad crossing sign

Options
Remote activation
Push button activation
Light, gas & fog sensors
DOT breakaway base
Portable or fix base
Wireless sync with other signs
