

RUMBLE STRIPS

RUMBLE STRIP MODEL R1

Size: 4' x 6"

Highly reflective, brilliant white or yellow profiled rumble strips designed for use where reflective traffic calming and speed reduction are required.

Unique design affords motorists with both standard and wet night reflectance along with audible and vibratory features to enhance drivers alertness.

Ideal for transverse speed reduction in construction zones, school zones, children play zones, reduced speed zones, railroad crossings, bridge decks, roadway shoulder channelization and other applications requiring speed reduction and/or traffic calming.

Each piece 6" x 4"

RUMBLE STRIPS are an innovative traffic safety product designed for traffic calming.

TRAFFIC CALMING

Rumble Strips create audible vibrating warnings for all vehicles approaching reduced speed zones. These day/night visibility warning devices utilize highly reflective reflective durable coatings and provide excellent reflective visibility during wet, nighttime conditions.

Can be used for temporary or permanent applications.

Alert drivers through a combination of safety features in just one product.

Non-Reflective Black

Non-reflective black matte finish profiled rumble strips designed for use where traffic calming and speed reduction is required. Provides an audible and controlled vibratory warning to motorists, alerting them that a change in driving patterns is required as a result of upcoming traffic hazards. Black matte finish blends into bituminous asphalt surfaces.

**RECOMMENDED FOR USE ON ASPHALT OR SMOOTH CONCRETE SURFACES.
TEMPORARY OR PERMANENT INSTALLATIONS.**

CONTACT CEMENT:

One gallon of contact cement covers approximately 50 to 75 sq ft.
10 rumble strips = 20 square feet.

CONSULT APPLICATION INSTRUCTIONS OR YOUR REPRESENTATIVE PRIOR TO USE.
