Earth Mount Base
Post & Panel

Channelizer Mount Base
Post & Panel

Advantages

- Fast and easy assembly “One Click” attachment
- Attaches to Unit-strut perforated square tubing
- Non mechanical Smart-Flex attachment
- Optional permanent, portable rubber weighted, earth and channelizer type bases
- Greater safety in the event of a collision (cars and motorcycles)

SmartFlex

The universal alternative to mechanical panel signs

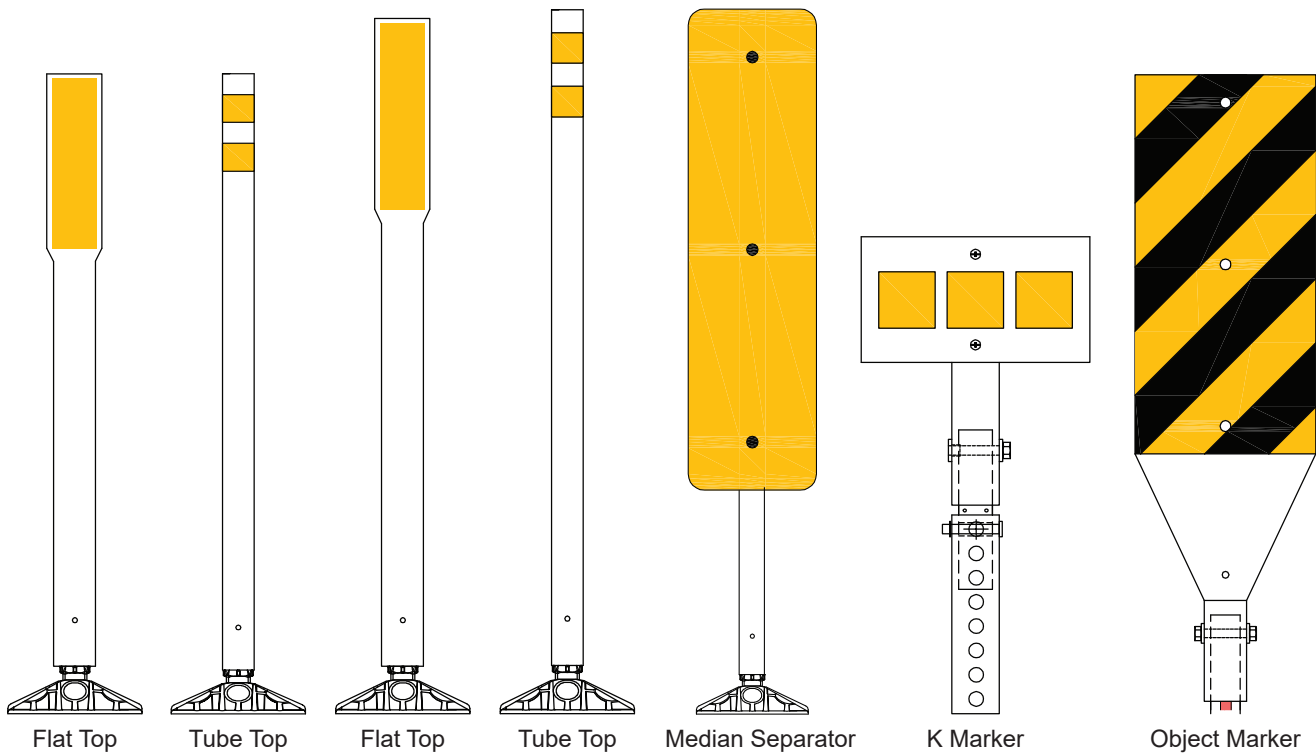

SMART-FLEX FLEXIBLE SIGN BASE SURFACE - CURB - EARTH

Pivoting sign post anchor

Revolutionary SmartFlex Universal pivoting post anchor is a strong, non-metallic single piece connector that connects all surface mount & earth mount bases including uni-strut type tubes, temporary weighted bases and channelizers together without the need bolts and screws. One pin is all that is needed to insert and lock a post in place.

ADVANTAGES

- Designed for omni directional impacts
- Self reboundable multiple hit design
- Epoxy and/or bolt down capability
- Ideal for mounting on headwalls
- Slope Base with T-Joint will mount vertical on slopes up to 30 degrees
- Simple non-mechanical (non-metallic) design
- Easy post replacement
- Low profile design, less damaging to vehicles
- Maintenance cost savings due to durability, minimizing change-outs
- Will accommodate small signs and chevrons
- Delineator post composed of post consumer recycled materials

Flat Top and tube posts available in all heights up to 48" tall
